# 4 STEPS TO SUCCESSFUL EV DEPLOYMENT

## UNDERSTANDING YOUR EV POTENTIAL

- Analyze existing routes and costs
- Understand your business requirements
- Determine specific benefits of electrification
- Identify public incentives
- Test selected electric vehicles

## CUSTOMISED 4 YEAR EV DEPLOYMENT PLAN

- Select appropriate e-vehicles
- Select appropriate charging infrastructure
- Integrate with existing fleet and operation
- Count with technology & cost development
- Manage incentives

## OPERATION OF ELECTRIC VEHICLES AS A SERVICE

- Vehicle rental
- Providing charging facilities & energy management
- Mobility and fleet management services
- 24/7 customer service
- Guarantee of electric mobility
- Driver training

## MEET YOUR TARGETS WHILE REDUCING YOUR EMISSIONS

- Regular analysis and enhancement of operational results
- Regular certified environmental report
- Update and extension of EV Deployment plan

# CLIENT TESTIMONIALS

"We are very satisfied with the service from GreenWay. Vehicles equipped with this technology represent a full-service alternative to using diesel for delivery"  
- Peter Pavuk, Operations Director at DPD

"It is truly great that we are no longer dependent on fluctuating fuel prices"  
- Marcel Dzacovsky, Fleet Manager at Med-Art

"With GreenWay, the switch to electric is easy"  
- Milan Smid, Depot Operations Manager, TNT
